Geography

It's just geography, after all
Is there a place on earth, if in a pristine way,
That lacks beauty?

The whole earth is stunning.
Where does the earth fail?

Not in the Seas, brimming with life, from the coldest arctic to the warm equator

Not on the Land: even the driest desert is covered with life

Not in the Air, holding the globe in it's gentle embrace, filled with the elements of life

E6M
To be high in the world you embrace the Air, looking down below *At the globe*

Fm7
To be low, you embrace the Seas, looking up at the bowl of the sky

AA6
In between, you embrace the Land, where *we* *E6* ~~life~~ thrives, where we grow

There's no loss, there's no gain-
All of the world, every bit, is rich, rich, rich
It's just geography, after all,
But here on earth, it's everything
